< RT704 Project >

Choose one of tasks in Assignments 1, 2, and 3.

[30 pt] 1. Survey at least 3 papers to address the task you selected. Summarize the papers within 1~2 pages.

[70 pt] 2. Choose one of 3 methods and implement. Compare the performance with the results you obtained at the assignment. If there is a big performance improvement, you will get a high score. Also, even if the performance improvement is small, if you analyze in detail what you have tried, you will get a high score.

Submit your report with the codes on LMS by 12/17. When you submit, make your zip filename "Project_yourfirstname.zip"
